Professional Summary

Software Engineer with experience building **scalable backend systems and full-stack applications** using Python and TypeScript. Strong foundation in **data structures, algorithms, networking (TCP/IP), Linux, and distributed system fundamentals**. Experienced in developing **REST APIs, microservices, and automation testing**, with hands-on experience contributing to production systems used by real users.

Technical Skills

Languages: Python, JavaScript, TypeScript, Kotlin
Frameworks: FastAPI, Django, Django REST Framework, React.js
Databases: PostgreSQL, MySQL, Redis
Systems: Data Structures, Algorithms, OOP, Distributed Systems Basics, Multithreading Concepts
Networking: TCP/IP, REST APIs, HTTP Protocols
DevOps & Tools: Git, Docker, CI/CD, GitHub Actions
Testing & Automation: Unit Testing, pytest, API Testing
Platforms: Linux, Backend Systems, Microservices Architecture

Work Experience

Surya Digital Bengaluru (On-Site)
Software Development Engineer Intern September 2025 - February 2026

- Developed backend services and RPC modules for an **AI-based QA platform**, improving system stability and testing workflows.
- Implemented **AI Session History RPC service and client integration** for scalable session data management.
- Built backend services for **Yafika Back-Office platform**, reducing bugs by **90% through automated unit testing**.
- Implemented transaction workflows and optimized database queries improving system performance.

Zapuza Technologies Basantapur, West Bengal 721126 (Remote)
Python Developer Intern November 2024 to April 2025

- Contributed to backend services supporting **~1,000 daily active users**.
- Optimized database queries and implemented caching strategies reducing **API response time by ~50%**.
- Developed and maintained REST APIs improving system reliability and scalability.

Projects

CareerBooklet - Blogs and Jobs Site January 2025 - February 2025
Tech Stack: FastAPI, PostgreSQL, Docker, JWT, Microservices

- Designed **microservices architecture** with authentication, blog, and profile services.
- Implemented **JWT authentication and scalable REST APIs**.
- Improved database performance through indexing and query optimization (~30% latency reduction).

Service Sphere - Multi-Client service platform March 2025
Tech Stack: Django, MySQL, CI/CD

- Built backend APIs supporting real-time booking and service workflows.
- Optimized queries reducing API response time by **~40%**.

Education

Alliance University 8.7 CGPA
Bachelor of Technology in Computer Science and Engineering December 2022 - May 2026

- Relevant coursework:** Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Awards & Certifications

Hackerrank - Software Engineer Intern | April 2025
Alliance Techathon | Face Prep | May 2025
MVP - Internship Program | Zapuza Technologies | May 2025
Udemy - FastAPI & Async APIs | May 2025
