Technical Skills

- **Languages:** Python, JavaScript, TypeScript, Kotlin
- **Frameworks:** Django, Django REST Framework, FastAPI, Celery
- **Databases:** PostgreSQL, MySQL, Redis
- **DevOps & Tools:** Git, Docker, CI/CD, GitHub Actions
- **Core Concepts:** REST APIs, Data Structures, Algorithms, OOP, Low-level Design, High-level Design, Networking, Problem Solving

Work Experience

Surya Digital Bengaluru (On-Site)
Software Development Engineer Intern September 2025 - February 2026

- Built in app popup notification for AI chat generation and enhanced features for *Lidana*, an AI-based QA platform, improving testing workflows, platform stability, and user experience.
- Wrote **RPC** definition for AI Session History and implemented its Client Implementation.
- Developed backend services for *BCN (Yafika Backoffice)* using RPC, reducing bugs by **90%** through automated unit testing and improving performance via query optimization.
- Worked on Redeem Back-Office Agency Banking where I implemented Request and Check move funds out of Yafika RPC server implementations and wrote Unit test cases for that.
- Tools Used – React Js, TypeScript, RPC, Kotlin, Ktor, Mobx, etc.

Zapuza Technologies Basantapur, West Bengal 721126 (Remote)
Python Developer Intern November 2024 to April 2025

- Contributed to a production-grade backend system serving **~1,000 daily active users**, developing new features and improving core functionalities.
- Optimized database queries and implemented caching strategies, reducing average API response time by **50%** and improving system stability.

Projects

CareerBooklet - Blogs and Jobs Site January 2025 - February 2025
Tech Stack: Microservices, API Gateway, FastAPI, Next.js (TypeScript), PostgreSQL, JWT, Docker

- Designed and implemented authentication, profile, and blog microservices using FastAPI and JWT, enabling secure, scalable user management.
- Designed optimized database schemas with indexing, pagination, and soft deletes.
- Achieved **~30% reduction** in latency and query execution time in local benchmarking.

<https://github.com/shiv1119/Career-Booklet>

Service Sphere - Multi-Client service platform March 2025
Tech Stack: Django, MySQL, JavaScript, CI/CD

- Optimized backend queries, reducing response time by **~40%** in local benchmarking.
- Implemented real-time booking and payment flows using Django.

Awards & Achievements

Alliance Techathon | Face Prep | May 2025

<https://faceprep.in/>

MVP – Internship Program | Zapuza Technologies | May 2025

<https://zapuza.com/>

Certifications

Udemy FastAPI and Asunc APIs Course: API development, async programming, and deployment best practices. June 2025

Udemy

<https://www.udemy.com/certificate/UC-eedb163c-89f9-49c2-9a5d-1a3a57efb292/>

HackerRank Software Engineer Intern.

April 2025

Hackerrank

<https://www.hackerrank.com/certificates/ccdb65a96cbc>

Education

Alliance University

8.7 CGPA

Bachelor of Technology in Computer Science and Engineering

December 2022 - May 2026

- **Relevant coursework:** Data Structures, Algorithms, DBMS, Networking, OS
- **Awards:** Alliance Techathon Award, HackerRank Certification
- **Activities:** Coding club, Hackathons, AI Tools in Development
